## Voting Breakdowns

Question: It is the recommendation of the Kansas Bowling Coaches Association that we adopt the policy to take the top four (4) scores each game, and NOT the top four (4) series, to determine matches. Rationale: This allows more athletes the potential to contribute to the teams totals. It will allow the athlete to keep motivated after a potential bad first and/or second game. It will allow coaches and spectators to know exactly where the teams stand after each game. And, it will raise the teams total scores adding to the excitement. Are you in favor of this change?

Question: It is the recommendation of the Kansas Bowling Coaches Association that we add a third class to bowling making the three (3) classes as follows: 6A- 28 schools, 5A- 20 schools, and 1A-4A -21 schools. Rationale: By adding a third class, we allow more kids to participate in the State Tournament. This would allow for more and smaller bowling centers to host regional and state. This could make the regional tournament closer to schools. We would be taking a proactive approach in foreseeing the eventual dividing of the classes. This would reduce the discrepancy of having 1A schools competing with 5A schools. And, this would reduce the OVER CROWDING of regional and state tournaments eliminating most problems associated with this. Are you in favor of adding the third class?
